

# Focusing the Lens: SDOH Activities at NINR

Alison Colbert, PhD, PHCNS-BC, FAAN

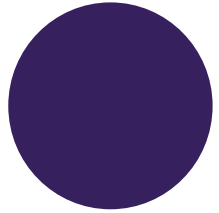

May 23, 2024

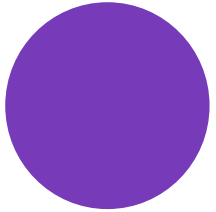

National Institute  
of Nursing Research

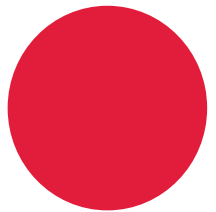

# SDOH Goals

Advance the science of SDOH research to optimize health and well-being for all.

Position NINR as a leader in SDOH research, both internally at NIH and externally.

Prepare more nurse scientists to lead and conduct rigorous, high-quality SDOH research.

# Funding Opportunities

- **NIAAA:** Model Continuums of Care Initiative (MCCI) to Advance Health Equity and End Health Disparities Among Women and Girls in Racial/Ethnic Minority and Other Underserved Communities
- **NIMHD:** STrengthening Research Opportunities for NIH Grants (STRONG): Structured Institutional Needs Assessment and Action Plan Development for Resource Limited Institutions
- **ODP:** Multi-sectoral Preventive Interventions that Address Social Determinants of Health in Populations that Experience Health Disparities

# Portfolio highlights, 2023 (RCDC)

Area of interest	Percent of budget	NIH rank as percent of budget
Social Determinants of Health	47	2
Health Disparities	46	2
Minority Health	25	2
Primary Health Care	14	2
Maternal Morbidity & Mortality	6.5	2
Prevention	41	3
Rural Health	8	3
Women's Health	20	4

A photograph of medical professionals in a hospital setting. In the foreground, a man in a white lab coat and a blue surgical mask is seen from the back, holding a clipboard. To his right, a man in blue scrubs and a blue surgical mask is also seen from the back, wearing white gloves. In the background, another man in blue scrubs and a blue surgical mask is visible, and a woman in a grey top is partially visible on the right. The scene is brightly lit, suggesting a clinical environment.

# Strategic Imperative

Firearm Injury Prevention

# Position NINR as a Leader in SDOH Research

Partnerships  
and  
collaborations

NIH  
leadership  
roles

Transformative  
Research to  
Address Health  
Disparities  
and Advance  
Health Equity

# Position NINR as a Leader in SDOH Research

## Infrastructure for SDOH grantees

Training opportunities  
Common data elements  
Resource and data sharing

## SDOH research resources for the broader investigator community

# Prepare More Nurse Scientist to Lead and Conduct Rigorous, High Quality SDOH Research

- Training opportunities across all levels
  - Undergraduate experiences to encourage research careers
  - Research training opportunities with an emphasis on design and methods
  - R25 on SDOH specifically (and areas like firearm injury)
- Outreach activities with nursing organizations and institutions
  - Special emphasis on minority serving institutions

## Social Determinants of Health

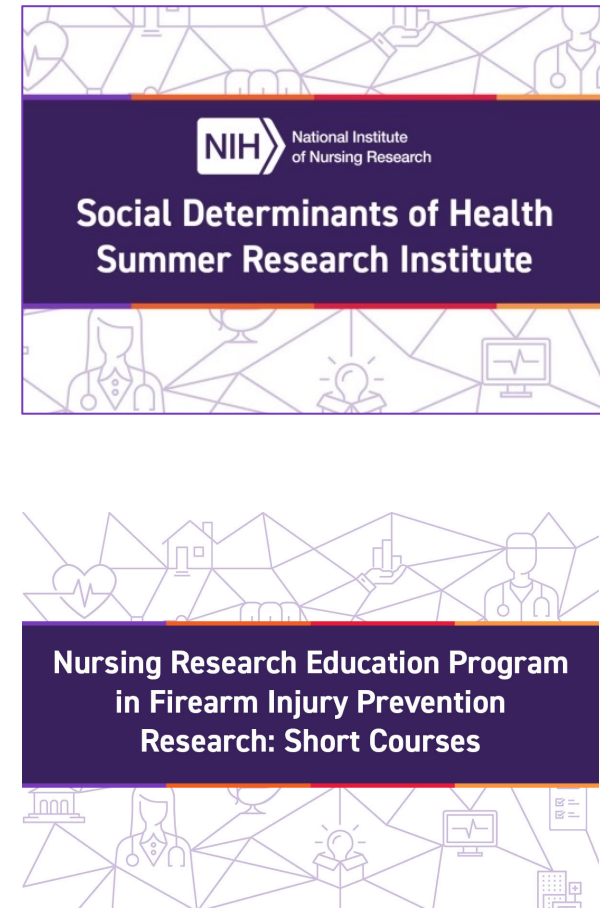

### Research Short Courses (R25)

RFA-NR-24-002

Due Dates:

January 12, 2024

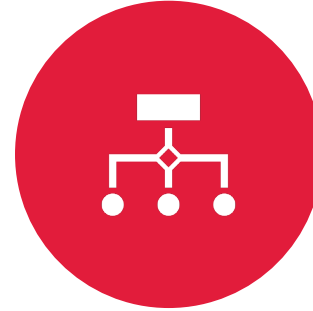

July 1, 2024

# Discussion Questions

What ideas do you have for NINR led initiatives on SDOH research?

Are there particular organizations or entities you see are critical to these efforts?

How can NINR build on this momentum to create new opportunities for nurse researchers?

Should NINR invest in the development of CDEs for SDOH research?

# Opportunities for Council to Engage with SDOH Activities
