

NINR's Solutions-Oriented Research

Advancing Health through Innovation and Action

Elizabeth Tarlov, PhD, RN

May 2025

National Institute
of Nursing Research

NINR Mission: Leading nursing research to solve pressing health challenges and inform practice and policy, optimizing health for all

NINR Solutions-Oriented Focus

NINR-Led Solutions-Oriented Research Initiatives

NINR Solutions-Oriented Research At A Glance

PI: MITCHELL, R01NR021826

The Re-Engineered Discharge for Diabetes Care Transitions (REDDCAT2): Screening and Addressing SDOH Needs at Hospital Discharge

NINR Solutions-Oriented Research At A Glance

PI: TONG, UG3NR020930

Adapting and Implementing a Nurse Care Management Model to Care for Rural Patients with Chronic Pain

PI: SHAW, R01NR019594

EXpanding Technology-Enabled, Nurse-Delivered Chronic Disease Care (EXTEND)

Community Partnership is Key to Identifying Solutions

- Amplify community voices and influence
- Leverage community strength
- Share decision-making and resources

Leading and Partnering to Advance Solutions-Oriented Research Informing Practice and Policy

NIH-wide Social Determinants of Health
Research Coordinating Committee

NIH-Wide SDOH Research Coordinating Committee

IMPROVE Initiative
Implementing a Maternal health
and PRegnancy Outcomes
Vision for Everyone

Implementing a Maternal health and PRegnancy Outcomes Vision for
Everyone (IMPROVE) Initiative

NINR research initiatives: Current and upcoming

The image is a collage of three photographs. The left side features two photos of school children in white uniforms and blue ties eating at a table. The right side features a photo of three people (two men and one woman) jogging outdoors on a paved path. A white rectangular box with black text is overlaid on the left side of the collage.

Moving What We Know Into What We Do to Improve Health
